

Using ICT to Promote the ASEAN Spirit

Bangkok, 18-19 March 2009

Forty participants from ASEAN Member States, comprising youths, policy makers and practitioners from private companies in Information, Communication and Technology sector gathered in Bangkok, Thailand, from 18-19 March 2009, for the "Seminar on Usage of ICT to Promote ASEAN Spirit".

The two-day seminar aims to develop ASEAN spirit among the youth in the region by using ICT as a mechanism. It will provide a platform for the participants to design techniques and strategies on the use of ICT to promote the ASEAN spirit. As part of the seminar, participants will visit the National Electronics and Computer Technology Center and Thailand's Science Park.

The Seminar is an ASEAN Committee on Culture and Information project.
